

THOUGHTFUL PROCESS

Veteran Indian artist, Jaideep Mehrotra, is holding a solo exhibition titled Reflections in Mercury in Mumbai, at Worli's Tao Art Gallery, from 23rd September 2017 to 22nd October 2017. His work will mainly feature the abstract painting forms for the first time. The gallery will be holding the same

art work for the art collectors for an entire month.

His latest technique is a culmination of many years of research, experimentation and exploration. At first glance, it seems like liquid metal has been dripped on the works, but upon closer inspection it's clear that the base is canvas creating a stunning and mystifying look, never seen before on a work of art. A combination of metal, paint and various mixed media come together to form these intriguing, highly reflective, metallic works that tantalise the viewers.
